David Ellefson is a living legend in the world of heavy metal. As the bassist of Megadeth, he has helped create some of the most iconic and influential albums in the genre. In his new book, *More Life With Deth*, he shares his insights on the music industry, his career, and his personal life.

In this exclusive interview, Ellefson discusses his new book, his thoughts on the current state of heavy metal, and his plans for the future.

On his new book, *More Life With Deth*

Ellefson: I wanted to write a book that was honest and insightful, and that would give readers a behind-the-scenes look at my life in Megadeth. I think I've achieved that with *More Life With Deth*.

The book covers a wide range of topics, from my early days in the band to the present day. I talk about the highs and lows of my career, and I share some of the personal experiences that have shaped me as a person and as a musician.

On the current state of heavy metal

Ellefson: I think heavy metal is in a great place right now. There are a lot of great new bands coming up, and the established bands are still putting out great music.

I think the key to the longevity of heavy metal is that it's a genre that's always evolving. There are always new bands coming up with new ideas, and that keeps the genre fresh and exciting.

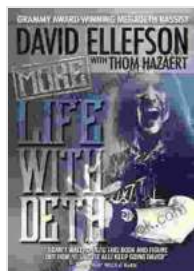

On his plans for the future

Ellefsen: I'm still very passionate about music, and I plan to continue playing and writing for as long as I can.

I'm also excited about the future of Megadeth. We're working on a new album right now, and I think it's going to be one of our best yet.

I'm also looking forward to touring again. I love playing live, and I can't wait to see our fans again.

David Ellefson is a true icon of heavy metal. His new book, *More Life With Deth*, is a must-read for any fan of the genre. In this exclusive interview, Ellefson discussed his new book, his thoughts on the current state of heavy metal, and his plans for the future.
