The impeachment of Donald Trump was a historic event that has had a lasting impact on American politics. The impeachment process began in December 2019, when the House of Representatives voted to impeach Trump on two charges: abuse of power and obstruction of Congress. The charges stemmed from Trump's alleged efforts to pressure Ukraine to investigate his political rivals, as well as his administration's refusal to cooperate with the House impeachment inquiry.

The Senate trial began in January 2020 and lasted for three weeks. Trump was ultimately acquitted on both charges, but the trial was a deeply partisan affair, with all but one Republican senator voting to acquit and all but one Democratic senator voting to convict.

The impeachment of Donald Trump was a significant event in American history. It was only the third time that a president had been impeached, and it was the first time that a president had been impeached by a divided Congress.

The impeachment process was highly controversial, and it has had a lasting impact on American politics. The impeachment has deepened the partisan divide in the country, and it has raised questions about the future of the presidency.

The Allegations Against Trump

The allegations against Trump stemmed from his interactions with Ukraine in the summer of 2019. In July 2019, Trump allegedly pressured Ukrainian President Volodymyr Zelensky to investigate his political rivals, including former Vice President Joe Biden.

Trump also allegedly withheld military aid to Ukraine in an effort to pressure Zelensky to comply with his demands. The House impeachment inquiry found that Trump had abused his power by pressuring Ukraine to investigate his political rivals and that he had obstructed Congress by refusing to cooperate with the impeachment inquiry.

The Senate Trial

The Senate trial began in January 2020 and lasted for three weeks. The trial was presided over by Chief Justice John Roberts. The House impeachment managers presented their case, followed by the Trump defense team. The trial included testimony from witnesses, including former National Security Advisor John Bolton.

In the end, Trump was acquitted on both charges. All but one Republican senator voted to acquit, and all but one Democratic senator voted to convict. The vote was largely along party lines, with only one Republican senator, Mitt Romney of Utah, voting to convict Trump on the abuse of power charge.

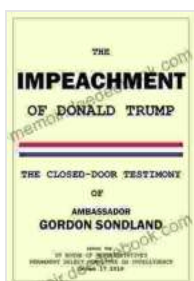

The Impact of the Impeachment

The impeachment of Donald Trump has had a lasting impact on American politics. The impeachment process deepened the partisan divide in the country, and it raised questions about the future of the presidency.
