# Valor Cost Children of Valor: The Heartbreaking Reality of Military Casualties

The cost of war extends far beyond the battlefield. For the families of fallen soldiers, the loss is immeasurable. The Children of Valor (COV) program provides support to the children of military members who have been killed or catastrophically injured in the line of duty.

The COV program was created in 2003 by the Department of Defense (DOD). The program provides financial assistance, educational support, and emotional counseling to the children of fallen and injured service members.

Financial Assistance

The COV program provides financial assistance to the children of fallen and injured service members. The assistance can be used to cover a variety of expenses, including:

- Education

- Housing

- Food

- Clothing

- Transportation

- Medical care

The amount of financial assistance that a child receives is determined by a number of factors, including the age of the child, the rank of the service member, and the cause of death or injury.

Educational Support

The COV program provides educational support to the children of fallen and injured service members. The support can be used to cover a variety of expenses, including:

- Tuition

- Fees

- Books

- Supplies

- Room and board

The COV program also provides scholarships to the children of fallen and injured service members. The scholarships can be used to cover the cost of attending college, graduate school, or vocational school.

Emotional Counseling

The COV program provides emotional counseling to the children of fallen and injured service members. The counseling can help children to cope with the loss of a parent or the injury of a parent. The counseling can also help children to develop coping skills and to build resilience.

The Impact of COV

The COV program has had a significant impact on the lives of the children of fallen and injured service members. The program has helped to provide financial stability, educational opportunities, and emotional support to these children. The program has also helped to build a community of support for these children.

The COV program is a vital resource for the children of fallen and injured service members. The program provides these children with the support they need to heal and to thrive.

How to Apply for COV

To apply for COV, you must be the child of a service member who has been killed or catastrophically injured in the line of duty. You can apply for COV online at the Department of Defense website.

The COV application process is simple and straightforward. You will need to provide some basic information about yourself and your family, as well as documentation of your parent's death or injury.

Once you have submitted your application, it will be reviewed by the Department of Defense. If you are approved for COV, you will receive a letter of award.

The COV program is a valuable resource for the children of fallen and injured service members. The program provides these children with the support they need to heal and to thrive.

If you are the child of a service member who has been killed or catastrophically injured in the line of duty, I encourage you to apply for COV. The program can make a real difference in your life.
